

LGR 2800i Dehumidifier

High-temp dehumidification for peak efficiency. This i-Series unit automatically adjusts operation for maximum efficiency in low RH or high temperature environments. Digital controls include a humidistat, real-time inlet and outlet temp and RH and GPP readouts, and filter replacement reminders.

FEATURES

- Built-in sensors monitor operation and digital control panel displays inlet and outlet conditions and grain depression.
- Adjustable automatic humidistat control.
- Automatic high temperature mode – no manual adjustments required.
- Legendary Dri-Eaz rotomolded housing resists dents and scratches – and is easy to keep looking new.
- Automatic restart after outage when power is restored.
